ENTRANCE ROAD AND BOAT LAUNCH CLOSURE AT CHOCTAW NWR

Starting September 3, 2013 the entrance road into the Choctaw NWR will be closed for road maintenance and the road may remain closed until November 2, 2013. The Choctaw boat launch will also be closed during this time due to the road maintenance. The refuge's office will remain open and staff available to assist the public. Updates on the status of the project can be obtained by calling 662-323-5548. The refuge boat launch will not be accessible but U.S. Army Corp of Engineer launches at Lenoir Landing and Service Park as well as Bobby's Fish Camp Landing can continue to be used to access refuge lands for hunting, fishing and other public uses. A complete listing of public use opportunities is available within the refuge's brochure. The brochure is available at refuge kiosks and by visiting www.fws.gov/choctaw. For questions, please contact the main refuge office at the Sam D. Hamilton Noxubee National Wildlife Refuge at 662-323-5548.
